

Periplus Workshops 2025

towards a new MATERIALITY / towards a new MATEREALITY

Revealing matter's potential in Crete, Greece

Short-term funded* residencies for designers, artists, architects, creatives & performing artists, working across all cultural fields.

Periplus Workshops offers selected creative and cultural students, graduates, tutors and professionals from all over the world, the time and space to delve into a constantly open lab, where thinking through making, direct experiential access to local identity and a deeply humanising relationship with nature may develop into a new approach to immense creativity.

Gathering knowledge that may subsequently help local communities better deal with their existing and future multifaceted challenges. Powerfully reengaging them with the wealthy but frequently neglected potential of their local natural and cultural environment.

When: July-August 2025

Where: Chania region, Crete, Greece

Who can apply: designers, artists & creatives, architects, innovation engineers & material researchers, performing artists, culture curators
